

## List of words containing the or sound

This list contains words with the sound /or/ spelled most frequently with the phonogram or. This word list also includes words spelled with the phonograms oor (*door*) and ore (*more*), because they appear in some common words. The or phonogram can appear anywhere in a syllable: at the beginning, as in *orbit*; in the middle, as in *storm*; or at the end, as in *for*. The oor and ore phonograms only appear at the end of a syllable (*poor*, *store*).

This list does not include the suffix -or, as in *doctor*, which is pronounced with an /er/ sound. It also does not include words spelled with other less common ways to spell the sound /or/ including *oar* (*board*), *our* (*four*) and *ar* when following a w (*war*, *warn*).

\*These words appear in *A Lost Horse*, the second story in Book 4 of the Meg & Greg series.
